ANNUAL REPORT 2005

Citadel S-1 Income Trust Fund

Citadel S-1 Income Trust Fund (the "Fund" or "Citadel S-1") is a closed-end investment trust which became listed on the Toronto Stock Exchange on October 6, 2000. The Fund has a termination date of December 31, 2010 or such earlier or later date as the unitholders may determine in accordance with the provisions of the Fund's Declaration of Trust.

On November 15, 2005, the Fund completed a unit split on a 2 for 1 basis, thus all per unit information has been restated to reflect the unit split. During 2005, the Fund paid monthly cash distributions of \$0.104 per unit for a total of \$1.248 per unit (2004 - \$1.648 per unit). Total distributions for 2004 included a special cash distribution of \$0.40 per unit for unitholders of record on December 31, 2004 in addition to the regular monthly distributions. As a result of significant realized gains in 2005, the Fund allocated income in excess of distributions declared. The excess allocation resulted in an increase to the adjusted cost base of each unit.

Management Report of Fund Performance

(April 6, 2006)

This annual report includes both the annual management report of fund performance, containing financial highlights, and the complete annual financial statements of Citadel S-1 Income Trust Fund (the "Fund" or "Citadel S-1").

INVESTMENT OBJECTIVES AND STRATEGIES

Citadel S-1's investment objectives are to provide its unitholders with a high level of monthly distributions while maintaining an SR-1 stability rating and to maximize the net asset value of the Fund over its life. In order to achieve these objectives, the Fund's investment manager actively manages a diversified portfolio of Canadian income funds, Canadian and U.S. high yielding investment grade debt and income yielding equity securities.

RISK

There are a number of risks associated with an investment in Citadel S-1. The principal risks include, but are not limited to, market and income risk. Market risk is the exposure to market price changes in the securities held within the portfolio which have a direct effect on the net asset value of the Fund. Income risk arises from a number of factors related to the operational performance of the issuers of the securities held in the Fund's portfolio. These risks include the effects of fluctuations in commodity prices, foreign currency conversion rates and interest rates and include general business operation risks, any of which may affect the issuers' income and as a result reduce distributions to its unitholders and the value of its units. Diversification and active management by the Fund's investment manager of the securities held in the portfolio may reduce these risks. During 2005, the Fund reduced its weighting in the interest rate sensitive power generation investments as interest rates climbed throughout the year and reduced its holdings of a number of issuers that had become overvalued in the opinion of the Fund's investment manager.

RESULTS OF OPERATIONS

Citadel S-1 grew its net asset value primarily on the strength of its oil and gas royalty trust positions despite periods of market weakness during the second and fourth quarters of 2005. The Fund's net asset value closed 2005 at \$71.3 million up from \$69.6 million at the end of 2004. On a per unit basis, net asset value climbed to \$16.98 per unit at December 31, 2005 from \$16.26 per unit at the end of 2004 as overall portfolio valuations increased and unit repurchases at discounts to net asset value helped boost the Fund's net asset value per unit. On November 15, 2005, the Fund completed a unit split on a 2 for 1 basis, and as a result all per unit information has been restated to reflect the unit split.

The Fund's market price closed the year at \$15.88 per unit, down from \$16.89 per unit at the end of 2004 due to weak market sentiment and rising interest rates. Citadel S-1's change in unit price plus monthly cash distributions produced a 1.8% total return for 2005, while the Fund generated a 13.0% total return on a net asset value basis. By comparison, the S&P/TSX Income Trust Index increased by 31.0% in 2005.

Total revenue for 2005 was \$5.7 million, down slightly from \$5.8 million generated in 2004 due to higher cash balances throughout 2005. Total expenses for 2005 were \$1.2 million compared to \$1.1 million in 2004 reflecting increased administrative and investment manager fees in 2005 as a result of the higher net asset value. Administrative and investment manager fees, which totaled \$0.96 million in the year (2004 - \$0.83 million) are payable in trust units of the Fund. Net investment income and net investment income per unit decreased from \$4.7 million and \$1.10 per unit in 2004 to \$4.5 million and \$1.05 per unit in 2005 due to the lower revenue and higher expenses.

During 2005, Citadel S-1 paid total distributions of \$5.3 million or \$1.248 per unit compared to \$7.0 million or \$1.648 per unit in 2004 on a post-split basis which included a \$0.40 per unit special distribution declared at the end of 2004.

The Fund took profits on a number of investments during 2005 which resulted in realized capital gains of \$2.5 million compared to \$4.0 million in 2004. In addition, unrealized gains on the Fund's portfolio of \$1.3 million (2004 - \$3.3 million) helped generate total results of operations of \$8.3 million or \$1.94 per unit compared to \$12.0 million or \$2.81 per unit in 2004. Lower realized and unrealized gains in 2005 were the primary reason for lower results of operations in 2005 relative to 2004.

Overall, the Fund increased its exposure to the oil and gas royalty trusts and pipeline investments and reduced its exposure to ongoing business trusts and power generation investments. The Fund's portfolio mix was designed to comply with the SR-1 stability rating requirements. As a result of the Fund's mandatory underweight position in the strong performing energy sector and the Fund's market price declining from a 3.9% premium in 2004 to a 6.5% discount to net asset value in 2005, the Fund's performance trailed the Index

TRADING PREMIUM / DISCOUNT TO NET ASSET VALUE

Over the past year, the Fund's market price traded at an average discount to its net asset value per unit of 5.4% compared to an average discount of 2.1% in 2004. With the widening discount, the Fund repurchased 146,104 units at an average cost of \$15.67 per unit under its mandatory repurchase program in 2005 compared to 78,132 units at an average cost of \$14.73 per unit in 2004. Under the Fund's mandatory repurchase program, the Fund is obligated to repurchase units offered for sale at a discount to net asset value of greater than 5%.

STABILITY RATING

Standard & Poor's provides a rating scale to assist investors in understanding the risk profile of an investment in an income fund. Standard & Poor's Stability Ratings characterize the stability of the cash distribution stream of an income fund in terms of variability and sustainability in the medium to longer term. The rating continuum ranges from SR-1 for the most stable to SR-7 for the least stable. During 2005, the Fund maintained its SR-1 stability rating and expects to maintain the rating in 2006.

RECENT DEVELOPMENTS

The current combination of a strong Canadian economy, low inflation, high commodity prices and relatively low interest rates provide a favorable environment and a positive outlook for the income trust sector. With its SR-1 stability rated portfolio, Citadel S-1 expects to maintain its monthly distribution rate of \$0.104 per unit (previously \$0.208 per unit on a pre 2 for 1 stock split basis) for 2006 based upon the Fund's current portfolio and analysts' estimates of distributions.

2. SIGNIFICANT ACCOUNTING POLICIES

These financial statements, prepared in accordance with Canadian generally accepted accounting principles, include estimates and assumptions by management that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results may differ from these estimates. The following is a summary of the significant accounting policies.

(a) Cash and cash equivalents

Cash consists of cash on hand and short term bankers' acceptances with maturities of less than 90 days on acquisition.

Investments are stated at market values based on closing market quotations. Average cost is used to compute realized and unrealized gains or losses on investments. Investment transactions are recorded on the trade date.

(c) Canadian income taxes

The Fund qualified as a unit trust within the meaning of the Income Tax Act (Canada). Provided the Fund distributes to its unitholders its net income for tax purposes, the Fund will not generally be liable for income tax under Part 1 of the Income Tax Act (Canada). As all taxable income was allocated to the unitholders in 2005 and 2004, no provision for income taxes has been made in these financial statements.

(d) Investment income

Dividend income is recorded on the ex-dividend date, interest is recognized as earned and distribution income is recognized on the ex-distribution date. Capital gains and losses are recognized on the trade date.
